John Naraway, a carpenter at work on the addition to Rehkopf's tannery in Mechanicsburg, was seriously injured today this morning. He was carrying a heavy piece of timber, when he slipped and fell, and the timber fell across him, badly crushing him.

Friends rushed to his assistance and the timber was removed and Dr. Troutman called. No bones, apparently, were broken, he seems to be badly hurt. He was taken to his home at Fourth and Elizabeth street.

IT IS DRAFTED

Mayor Lang Prepares the Meat and Milk Inspector Ordinance.

WILL COME UP MONDAY

There May Be Difficulty in Finding a Man for the Place—The Salary Will Be About \$600.

SOMETHING OF THE SALIENT POINTS

Mayor Lang this morning completed the new ordinance agreed on by the board of health and council committee relative to a live stock, meat and milk inspector for Paducah, the agitation of which has caused so much comment and controversy for the past several weeks, and it will be submitted to the committees for suggestions or changes and then to the council Monday night for passage.

The salary will be fixed at about \$600 year, and the penalties at amounts that will have the desired effect in enforcing the purposes of the law, but those amounts are to be fixed by the council when the ordinance is presented for passage, and may be changed from the amounts now contemplated.

The eligibility of the new official, who will be elected for one year in June, will be the same as other city officers, who must have been a resident for two years, but in addition he must before he can be elected and qualify present a certificate of competency for discharging the duties imposed, from three reputable physicians of Paducah.

The two year past will prevent a man from out of the city being elected. It is probable that some physician will be elected to the place.

The ordinance requires an inspection of all cattle before it is slaughtered, and of all dressed meats, poultry, fish, game and other meats. Cattle that has been inspected before slaughtered does not have to be again inspected after being placed on the market. The dressed meat clause is to enable meats from adjacent counties which cannot be inspected before slaughtered, to be sold on the market here, also the Chicago beef.

"If any impure meat is sold here," said Mayor Lang this morning, "it is probable that it is shipped here." All cattle in the city or within one mile is to be inspected free of charge to the owner, but all beyond one mile of the corporate limits is to be paid for by the owner, the fees thus derived to belong to the inspector, and which will constitute the "perquisites" of the office.

The inspections shall be made as often as necessary, and no meat shall be slaughtered in the county that has not been inspected and approved.

In regard to the milk inspection, the duty of the inspector shall be to inspect all cows at the dairies once every two weeks, and whenever an addition is made by the dairyman, it shall be reported to the inspector and no milk from such additions shall be sold until the inspector has approved it. He shall also with the health officer inspect all premises, vessels, and whenever he desires has the power to stop wagons on the street and inspect the milk and if deemed impure, to order its sale stopped.

Under the new ordinance no veal under four weeks old may be slaughtered. The ordinance is believed to cover every point involved and will probably meet the approval of the board of health.

Severe penalties will be stipulated that will prevent or at least render unprofitable any violation of the ordinance.

THE VISITORS HAVE GONE

Committees Meet Today at St. Louis—Decision Will Be Made in Ten Days.

SECRETARY DAINS FEELS ENCOURAGED

Messrs. Charles and Conradt, of Kokomo, Ind., who were here yesterday as guests of the Commercial club, left last night for St. Louis, where they today meet the committee that has been visiting towns on the lower Mississippi.

The gentlemen were shown the sites in Paducah and vicinity by Secretary Dains, of the Commercial club, but did not express an opinion about the relative advantages offered by the various cities they have visited. The place they choose, however, must be one where there is cheap material and fuel. They desire to locate near pig iron furnaces and where coal is plentiful, and where they can get good rates by rail and river.

Secretary Dains feels confident that Paducah compares favorably with any of the cities visited. There is a probability of several iron furnaces, including the one in Paducah, being in operation within a comparatively short time, and Paducah is not to be excelled by any city in her natural advantages and cheap freight rates.

Taking into consideration everything, it is believed that Paducah has a better chance to get the big steel concern, the capital of which is \$1,500,000 than might be supposed when it is remembered that all the cities of importance from Cincinnati to Paducah and from St. Louis to New Orleans, were visited.

ELKS HOME.

THE MEMBERS OF PADUCAH LODGE NOW CONSIDERING

One-It is Uncertain Just What Action Will Be Taken—Committee Appointed.

Paducah lodge No. 217, B. P. O. E., is now considering the matter of securing a home. The recent carnival was partly to raise funds for the Elks' home project, and the result was so gratifying that the lodge has begun to consider the home location, and last night a committee was appointed to investigate the best means of investing the money, whether in a home or placing it at interest until the entire amount necessary is secured.

The lodge now has over \$7,000 in cash, and could no doubt easily raise a thousand or two more. Several buildings have already been offered. One is the Leach building, on North Fourth, now occupied by the Elks and other secret orders another is the Buckner property at Eighth and Jefferson, on North Seventh, now owned by Dr. J. G. Brooks.

It is believed that the majority of members will favor taking no action until all the money needed is secured. In this event the money already on hand will be safely invested.

—There will be service tonight at Broadway Methodist church preparatory to the sacrament on Sunday.

THERE IS SOME DISSATISFACTION

Seven of the Discharged Motormen Back at Work--The Others are Mad.

More trouble is possible in street car circles. This morning seven of the motormen who were discharged last Sunday morning were put back to work and it seems this created dissatisfaction. The motormen were under the impression that all the fifteen regular men laid off Sunday were to be put back this morning. About eight of those discharged were "extra men." One of the motormen said to a reporter: "The verbal agreement we had with the street car company was all right, and under it fifteen or eighteen of the old men were to be put back today. Under the written agreement, however, they have the best of us, it seems, and do not have to put back any of the old men 'except as needed,' which might never be."

"You see they have more 'scabs' on the cars today than regular men. The men who have been on since we got locked out Sunday are not union men. They may get to be, but they are not yet, and we think that until they are we ought to be given the preference, since the company has recognized the union."

The street car company, however, simply sustains its action by the agreement, which says:

"First—We agree to reinstate as many as possible of the locked out motormen immediately, and to place the remainder upon the eligible list."

"Fourth—All extra men to be considered as union men and to come under the jurisdiction of the same."

It is seen that under the agreement, signed by both sides, and which was said to be satisfactory to all concerned, the so-called "scabs" are considered

WANTED HELP.

MRS. HOAGLAND SAID HER FAMILY WAS WITHOUT FOOD.

Mayor Lang this morning received a note from Mrs. Edna Hoagland, of North Eighth street, asking help. She said that she had been working night and day for two weeks making clothes for a lady of Paducah, who with her husband went away on a visit, leaving only an order for groceries in part payment. The grocer refused to accept the order, and she was forced to appeal to the mayor. She has three small children, and the mayor rendered the family temporary aid.

A DAILY THOUGHT.

The unspoken word never does harm.—R. L. Smith.

PROSPERITY AND PIETY.

From several of the large cities of the country come complaints that the young people are apathetic in their church duties and that the spread of prosperity has affected the general piety, says the Philadelphia Post. It is curious how history repeats itself. Just a century ago the same complaints were made. The indifference of the young people amazed and discouraged the clergy. Neither they nor their parents could get them to attend church regularly. In that case, however, there was an explanation. The rigors and fears of the long war for independence had disciplined the people, and the church became the natural center for the interests of the family and of its social life. This continued with the poverty that succeeded the war, but after a while the material conditions began to improve and, with a larger life and more money to spend the young folks broke loose from the rigors which had held them back.

The complaints of today are by no means new, even in the recent years. Nor are they altogether justified by the facts, for there never was a time in the country's history when so many young people were banded together in religious associations or when they took a larger part in the actual conduct of the churches. Still, this might possibly be a good subject for the debating society: Does Prosperity Make People Good?

Paducah needs a scavenger system similar to those in vogue in many other cities. Owensboro, although much smaller, has a system that is both cheap and satisfactory. Merchants there are not permitted to sweep the filth from their stores onto the streets. They are all required to keep a can or receptacle of some description, into which the trash from their houses is swept, and left on the sidewalks in front. Carts then come along and into them is deposited the trash, which is then hauled away and dumped into low places. The cost is not great, and the good sanitation resulting is ample return for the outlay. If adopted it would solve the problem of what to do with the filth that is daily swept from the stores of Paducah onto the street, and allowed to remain there until the city sees fit to haul it away, which may be in a day, or may not be in a week. New York in this way serves the entire city, and has built up five acres in the bay from the deposits. Paducah is the only city of any pretensions in the state that allows the people to dump all their filth into streets and gutters.

Henderson is having her trouble. The Gleaner says: "The nimble fingered experts recognizing that the end of the street fair is rapidly nearing its end, got a move on themselves yesterday and succeeded in making a pretty good day's wages. Several gentlemen were relieved of their pocket change and one or two of them men who were thought to be up to snuff."

If a gentleman foolish enough to wear a watch exposed or a loaded pocketbook conveniently located, hopes to get safely through a Midway crowd without being plucked he had better employ the use of a pair of five foot stilts or ride the "Streets of India" dromedary. Even then he will not be absolutely safe. The town is full of them."

The Republicans are meeting with encouragement on every hand in their contemplation of a city and county ticket. The party is solid. There are no bolters. Republicans vote the Republican ticket. If there are any sore heads who talk of not voting the ticket they are not Republicans, they never were and never will be, and are so few and far between that they receive no consideration from the rank and file of the party. By putting out a good ticket, the Republicans expect to poll the vote of every true Republican, and the votes of many Democrats who favor an up-to-date, progressive city and county administration.

Paducah's wharf is nothing to be proud of so far as beauty is concerned. It is a disgrace, and does more to hurt the town than anything else in the way of improvements, or alleged improvements. The wharf is an eyesore, and needs cleaning up. The city council for sake of the appearance that is presented when boats pass and land with strangers, should do something towards improving the condition without delay. Many passengers who stop while the boat is at the wharf do not hesitate to say that Paducah is the dirtiest looking city on the river judging from her river front.

The people of Richmond are to file an injunction suit enjoining the consolidation of Central University with Centre college. Richmond and Madison county donated quite a sum for the location of the college, and the chancellor has been summoned to make an accounting of the funds on June 4. It seems that the consolidation of the colleges will not be as easy as was anticipated.

A judge in Washington has decided that croquet cannot be legally played after 10 p. m. He thinks this an unnecessary hour for it, and consequently the law doesn't permit it. The courts may be expected to decide before long how often a man may legally call for a "schonnie" on a warm day in Kentucky.

The vote for the next Confederate reunion was 1,263 for Dallas and 1,014 for Louisville, which showed that Louisville was still in it, although she had the reunion only a year ago. Louisville may be a slow old coach, but she makes lots of racket.

The discussion of some of the school faculties over the relative merits of vertical and other kinds of writing is unnecessary. Why not settle it by a lotting typewriters?

The mayor, board of health and council committee have all been vindicated. The public may now get its dues.

Aginaldo has not decided where he will spend his summer vacation.

The mystery of the street roller has never been solved.

OFFICE CLOSES.

THERE WERE MANY RECRUITS SECURED SINCE MAY 13.

The recruiting office on Broadway near Fourth street closes this evening, after having been running since May 13. Quite a number of recruits for the infantry were secured, and there were fourteen rejections.

Tonight Lieut. Fred de Funiac, Jr., of the Eleventh infantry, who will arrive at 6:05, will leave at 1:25 for Louisville with George Broadbitt, Darke county, Ky.; Anthony Darrick, St. Louis; Sam P. Arnold, Union county, Ky.; Charles P. Stephens, Centerville, Tenn.

CADIZ COURT.

ONE MAN ACQUITTED ON A CHARGE OF MURDER.

John Boyd, colored, was acquitted at Cadiz for killing Beverly Wright, also colored, with a rock at Cerulean Springs last September. Boyd was given two years in the penitentiary at the last term of court, and Judge Cook granted a new trial.

The case of Wm. Ethridge, indicted for shooting Joe Ballard last January, was continued to the seventh day of the next September court.

OFFICERS ELECTED

MRS. ROWENA RIVERS RE-ELECTED TREASURER AT OWENSBORO.

The Christian Missionary and Sunday School convention at Owensboro has ended, and the local delegates have returned to the city. The officers elected are as follows: Mrs. Elizabeth Gish, of Hopkinsville, president; Mrs. Will Morton, of Madisonville, vice president; Mrs. Dr. Young, of Hopkinsville, corresponding secretary; Mrs. Gant, of Hopkinsville, recording secretary, and Mrs. Rowena Rivers, of Paducah, treasurer.

TEACHERS' CERTIFICATES.

The seven colored applicants examined for county school certificates last week passed, but there were no first class certificates. They all received second and third grade certificates.

NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious. People are too afraid of heredity; better not think of the subject at all. Infection occurs continually.

Low vital force is hereditary; which gives consumption its chance. And infection plants it.

Between the two, the crop is a big one: about one-sixth of the human race, so far as is known.

We suppose it needn't be 5 per cent, if people would take fair care and Scott's emulsion of cod-liver oil.

GOOD PROMOTIONS

PADUCAH MAIL AGENTS TRANSFERRED TO BETTER RUNS.

The Change Takes Effect Monday Morning—Those to Be Changed.

Monday morning an important change affecting three well known mail agents, who have been running into Paducah for the past several years takes place. Messrs. W. H. Link, H. H. Batson and W. C. Stewart, who have had the runs from St. Louis to Memphis, and will reside in either St. Louis or Memphis.

There are now separate runs from Paducah to St. Louis, from Chicago to Cairo, and from Cairo to Memphis. There are to be under the new arrangement runs from St. Louis to Carbondale, and from Carbondale to Paducah, and from St. Louis to New Orleans via Memphis.

PADUCAH IN 1903.

THE HOMEOPATHIC SOCIETY MEETS IN LEXINGTON NEXT YEAR.

Dr. R. A. Hicks, the retiring president of the Kentucky Homeopathic society, returned this morning from the state meeting at Louisville, and reports an exceptionally large meeting, there being about 150 present. The papers were of unusual merit, and the delegates were well pleased with Louisville's hospitality. Next year the society holds its meeting in Lexington, but the following year will probably come to Paducah. Officers were elected yesterday, but no Paducah doctor was elected to any of the offices.

APPOINTED DELEGATE

DR. H. PRESTON SIGHTS WILL ATTEND AMERICAN MEDICAL SOCIETY.

Dr. H. Preston Sights, of the city, has been appointed a delegate from the Kentucky State Medical society to the meeting of the American Medical association at St. Paul, Minn., on June 4th. Dr. Sights, who would do credit to both Paducah and his state, will probably attend.

ELKS NEW SECRETARY

MR. THOMAS BAIRD ELECTED LAST NIGHT BY THE LODGE.

Mr. Thomas Baird was last night elected secretary of Paducah lodge of Elks and assumed the duties of office at once. The election aroused considerable interest, and there were three aspirants for the place. Mr. Baird was for several years secretary of the lodge and always made a good one.

A NEWS SERVICE WITHOUT PARALLEL.

There is ample justification for the claim made by The Chicago Record-Herald that its readers enjoy every day in the week, Sundays included, a news service that is without parallel in range and completeness. The reason is obvious—the combination of the varied and extensive facilities of the two great dailies, The Chicago Record and The Chicago Times-Herald. In addition to the independent news facilities of both papers, The Record-Herald receives the complete news service of the New York Herald, The New York Tribune and The Associated Press; and when it is considered that its news columns are supplemented by all the special features so popular in The Chicago Record and The Chicago Times-Herald, it will be seen that The Record-Herald holds a unique place among the great newspapers of the United States.

They were then released from custody.

HOW THE REPORT OF TROUBLE WITH MACHINISTS STARTED.

There was a report afloat this morning that a strike was on in the machine department of the local I. C. shops. The report was started by the resignation of seven "hobo" machinists yesterday. They were not union men and quit because they were not satisfied with the scale of wages.

They are of a set that come to town every day and work long enough to make money enough to leave town without walking. The union men are all satisfied and no trouble will be experienced.

Mr. W. E. Smith, of Chicago, will fill Dispatcher J. B. Alvey's place in the local office when the latter goes to California to attend the National Telegraphers' convention Monday.

The work on the Cadiz railroad is progressing finely. From present indications, if the energetic impulse is given the enterprise by the directory, the smoke from the locomotive may be looked for before lunch time at the hotels the 1st of October.

The plastering work on the new addition to the Illinois Central hospital began today. Mr. H. Miller Cunningham, the well known plasterer, has secured the contract and will push the work to a rapid completion.

Mr. Fred Hisey is working extra in the yardmaster's office of the I. C. here.

The morning train from Memphis was loaded to overflowing with returning passengers from the reunion. The train carried thirteen coaches but was run in one section. The passenger trade on the Southern division is heavier than on the Louisville division and all the trains on that division are run in two and sometimes three sections to accommodate the crowds.

Mr. Bell Given, of the master mechanic's office, returned from Memphis this morning.

The master mechanic's office is being enlarged. The partitions have been taken out and additional space taken in. The work was commenced late yesterday afternoon and the work will be finished in a few days.
